Copper cable earthing bridges

The earthing bridges are designed for earthing, current return circuits and equipotential bonding in railway line applications. This version establishes a non-visible connection within the concrete by welding the copper-plated steel lugs pressed onto the copper cable to the earthing reinforcement. The flexibility of the cable makes installation in the reinforcement easier for the user. The earthing bridges also have technical approval from DB Netz AG and can be reliably used in planning.

Type	D BEB 9-FLEX / EBS 15-03-19
Part No.	419 091 NEW
Material of lug	St / Cu
Material of cable	Cu
Short-circuit current	≤ 25 kA
Test current	25 kA / 100 ms
Standard	Ril 997.0205A01
Cable	H07V-K
Cable cross-section	70 mm²
Cable diameter	17 mm
Dimensions of lug	80 x 30 mm
Length	500 mm
DB drawing No.	3 Ebs 15.03.19 - 33
Weight	570 g
Customs tariff number (Comb. Nomenclature EU)	85389099
GTIN	4013364439580
PU	1 pc(s)

We reserve the right to introduce changes in performance, configuration and technology, dimensions, weights and materials in the course of technical progress. The figures are shown without obligation.
